

Closed Cap Series – for frequent wash-down | Prevents fluid in tube cavity

AED have introduced closed cap (CC) roller series for use in various wash-down applications. **IP rating IP46**

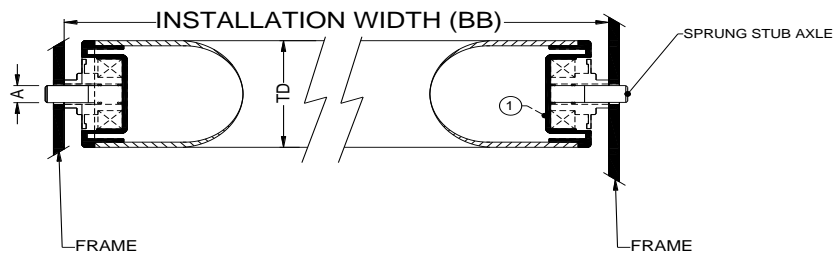

The CC series offers unique design features with closed cap technology to prevent entry via bearings into tube cavity

†Not suitable for impact areas / under belt applications.
 Specifications may be modified and combined with other AED Products to suit individual customer requirements.

ROLLER DIAMTER	Tube Material	ROLLER TYPE	STUB AXLE SPRUNG FIXING	A	Load Capacity† (No impact)	
Ø30	PVC Grey	PL30CCAX1	Ø6x10 LG	Ø6	12kgF udl <330mm	5kgF udl <450mm
Ø30	PVC Blue	PL30BCCAX1	Ø6x10 LG	Ø6	12kgF udl <330mm	5kgF udl <450mm
Ø30	STAINLESS	SS30CCAX1	Ø6x10 LG	Ø6	12kgF udl <330mm	5kgF udl <600mm
Ø50	PVC Grey	PL50GCCAX1	Ø8x10 LG	Ø8	25kgF udl <500mm	15kgF udl <650mm
Ø50	PVC Blue	PL50CCAX1	Ø8x10 LG	Ø8	25kgF udl <500mm	15kgF udl <650mm
